***Election/Restrictions***

Claims 1-7 and 12 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 8-10, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement as set forth in the Office action mailed on 03-17-2005 is hereby withdrawn. In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claim 11. Claim 11 is drawn to a non-elected invention.

**REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Art Unit: 1711

Applicant has amended claim 1 to clarify the bond distance recitation according to the description on page 11 of the specification as originally filed. The instant claims limitations with respect to bond length set forth in claim 1 are not disclosed or suggested in the prior art already made of record and otherwise known to the examiner.

The comparative data in the Declarations filed 06-09-2005 and 12-14-2005 is unpersuasive of patentability for the reasons set forth in the Office Action mailed 04-17-2006. Specifically, Ohkawa et al disclose species of sulfonium salts corresponding to Formula (II) set forth in instant claim 1, however, the sulfonium salts tested in the Declaration are representative of sulfonium salts of formula (I) set forth in instant claim 1. Additionally, the instant claims are not commensurate in scope with the data in the Declaration.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan W. Berman whose telephone number is 571 272 1067. The examiner can normally be reached on M-F 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck can be reached on 571 272 1078. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
